\_\_\_\_\_.

What does "reward pathway" mean?

What is the chemical released in the reward pathway? \_\_\_\_\_

**Side effects** are \_\_\_\_\_ caused by drugs.

Common side effects:

- 
- 
- 

**Tolerance** is

---

---

**Withdrawal** is

---

---

Common symptoms of withdrawal:

- 
- 
- 
- 
- 
- 

### **Drug Interactions:**

Drug \_\_\_\_\_ occurs when each drug's effect is canceled out or reduced by each other.

Drug \_\_\_\_\_ occurs when drugs interact to produce effects greater than those that each drug would produce alone.

### *17.2 Factors Affecting Drug Abuse*

What is the difference between a risk factor and a protective factor?
